

Hexagon key L-wrench long, with ball point and short arm

Version: L-form shaft, ball point can be applied up to an angle of 30°. Maximum hardness with special toughness due to PB Swiss Tools special alloy.

62 7370/7375 – Surface chrome-plated over nickel.

62 7372/7377 – Surface chrome-plated over nickel and **powder-coated** for quick location by clear "Rainbow" colour coding.

Application: Thanks to the short arm and the angle of 100° the tool can reach even into places where access is difficult.
